CS 483 Project Report

Joe Miner   Bruce M. McMillin
Department of Computer Science
Missouri University of Science and Technology, Rolla, MO 65409-0350

Abstract

tell us about the infrastructure, the type of rights leakage, and the models used followed by a comparison of each.

1. Introduction

Write a background on security policy models and a background on your infrastructure as a model problem and why modeling of CPS is hard.

2. Survey

Briefly survey each model

2.1. HRU

text

2.2. T-G

text

2.3. BLP

text

2.4. Biba

text

2.5. Noninference/Noninterference/NonDeducibility

text

3. Specific Models and Rights Leakages

3.1. HRU

text

3.2. T-G

text

3.3. BLP

text

3.4. Biba

text

3.5. Noninference/Noninterference/NonDeducibility

text

4. How to typeset figures and text

Figure 1. Example of caption.

4.1. References

List and number all bibliographical references in 9-point Times, single-spaced, at the end of your paper. When referenced in the text, enclose the citation number in square brackets, for example [1]. Where appropriate, include the name(s) of editors of referenced books.

5. Conclusions

Provide a summative conclusion on the modeling of your infrastructure.
